

YOUNG TALENT AREA

VISION ROBOTICS & MOTION | 05 & 06 JUNE 2024 | BRABANTHALLEN | 'S-HERTOGENBOSCH

This is your opportunity as a student or student team to showcase your innovation in vision technology, robotics, motion control or data science to a large audience.

Register free of charge for the Young Talent Area at VRM 2024!

THIS IS VISION, ROBOTICS & MOTION 2024

During this trade fair, smart production automation is the focal point. On the exhibition floor you will find over 100 exhibitors (manufacturers, suppliers and consultants). In addition, the conference programme consists of use cases and tips from manufacturing companies, providing insights into the latest technological developments and applications by industry experts. More information: www.vision-robotics.nl

WHAT OPPORTUNITIES DOES EXHIBITING IN THE YOUNG TALENT AREA OFFER?

- Showcase your innovation to national and international experts
- Space on the exhibition floor including two days of catering and parking tickets for 2 persons
- Your participation will be included in our media campaigns and trade fair programme
- Connect with potential customers, sponsors, suppliers and employers
- ...and all of the above completely free of charge!

REGISTER

Registering your team is free of charge. Please send an email to events@mikrocentrum.nl including the following information:

- Team name
- Accompanying institution
- Title project or innovation
- Brief description of the subject of the innovation
- Picture of the demo you wish to show

We look forward to receiving your registration!

The organisation will review all registrations and will then personally contact the qualified teams for further coordination of the participation.
